Welcome to Goldie's Pet DNA Plus personality report

Airedoodle

100%

Genetic Temperament Index

Trait: Sociability

Score: 8

Interpretation:

Goldie thrives on social interaction, enjoying the company of both humans and other pets, making him a friendly addition.

Trait: Confidence

Score: 6

Interpretation:

Goldie displays a moderate level of confidence, showcasing a willingness to explore while being cautious in unfamiliar situations.

Trait: Trainability

Score: 7

Interpretation:

Goldie shows a good response to training, benefiting from consistent and positive reinforcement methods that engage his eager mind.

Trait: Energy Level

Score: 8

Interpretation:

With high energy levels, Goldie requires regular exercise and playtime to keep him happy and prevent boredom-related behaviors.

Trait: Sensory Reactivity

Score: 5

Interpretation:

Goldie is moderately reactive to sensory stimuli, demonstrating curiosity while also needing time to adjust to new sounds or sights.

Goldie's Behavioral Profile

Goldie is an energetic and social Airedoodle who thrives on interaction and mental stimulation. His playful nature and eagerness to learn make him a joy to train, though he benefits from structured environments. Given his genetic background, he may have some health considerations, but overall, he exhibits a positive demeanor.

Problem-solving

★★★★☆

Goldie shows strong problem-solving abilities, often figuring out puzzles and toys that require critical thinking for rewards.

Impulse control

★★★★☆

While generally manageable, Goldie sometimes struggles with impulse control, especially when excited or in new environments.

Obedience drive

★★★★☆

Goldie is eager to please and usually responds well to commands, particularly when motivated by treats or play.

Curiosity level

★★★★★

Goldie's high curiosity drives him to explore his surroundings, often investigating new smells and sights with enthusiasm.

Preferred enrichment

★★★★

Goldie enjoys a variety of enrichment activities, including puzzle toys, interactive games, and regular outdoor adventures that stimulate his mind.

Morning mood

Energetic

Afternoon mood

Calm

Evening mood

Affectionate

DNA Analysis Report

Powered by Wisdom Panel

Breed Analysis

Goldie is an Airedoodle, a mix between an Airedale Terrier and a Poodle. This blend means he is likely to be intelligent, friendly, and energetic, making him a great family companion.

Health Insights

Goldie is at risk for certain genetic conditions like Intervertebral Disc Disease, but he is clear of many other serious conditions. Regular vet check-ups are essential to monitor his health.

Physical Traits

Goldie has a soft, curly coat and weighs between 50-80 lbs. He is likely to shed minimally, making grooming easier for his owner.

Genetic Diversity

Goldie's genetic diversity is average, indicating a balanced genetic background which generally contributes to better health.

Unique Findings

Goldie carries a unique gene variant associated with a curly coat, which may contribute to his distinctive appearance.

Detailed Genetic Analysis

Health Predispositions

Chondrodystrophy

Be aware of his back health and consult a vet about preventive measures.

High Risk

Risk Assessment

Obesity Risk

Goldie's genetic makeup suggests a moderate risk for obesity, so monitoring his diet is essential.

Average

Medication Sensitivities

MDR1 Gene

Clear

Goldie Does Not Carry The MDR1 Gene Variant, Indicating He Is Less Likely To Have Adverse Reactions To Certain Medications.

Health Watch List

Weight management

To prevent obesity-related health issues.

Monitor: Regular weigh-ins and diet adjustments.

Future Care Adjustments

Diet

Adjust calories as Goldie ages and becomes less active.

Disclaimer

Important Information

Do DNA results indicate allergies or medication risks?

The DNA test provides insights into genetic predispositions, but may not fully indicate allergies or medication risks.

Does the test provide microbiome or nutrition insights?

The test does not provide detailed microbiome or nutrition insights beyond genetic predisposition.

Is allergy data included or only breed/health identification?

The test focuses primarily on breed and health identification, not specific allergy data.

Genetic Health Insights

Breed-Relevant Conditions

Intervertebral Disc Disease

Goldie's Airedoodle genetics can predispose him to back issues.

Vet Guidance: Monitor for any signs of discomfort and consult your vet.

High Risk

Other Health Conditions

Hip Dysplasia

Common in large breeds like Goldie, regular monitoring is advised.

Vet Guidance: Regular vet checks can help catch issues early.

Moderate Risk

Appearance Traits

Coat color

Goldie likely has shades of cream to red in his coat, characteristic of Airedoodles.

Gene: ASIP

Muzzle length

Goldie has a slightly shortened muzzle, typical for his breed mix, giving him a unique look.

Gene: BMP3

Eye color

Goldie is likely to have brown eyes, a common trait in Airedoodles.

Gene: ALX4

Performance Traits

Altitude adaptation

Normal

Goldie can adapt well to different altitudes, typical of Airedoodles.

Appetite drive

High

Goldie has a strong appetite, indicating he enjoys his meals and needs proper portion control.

Heat/cold tolerance

Moderate

Goldie can tolerate mild weather changes but should be monitored in extreme conditions.

Ancestry & Lineage

Maternal Haplogroup

unknown (unknown)

Origin Story

Goldie's lineage traces back to both Airedale Terriers and Poodles, which were bred for intelligence and versatility.

Modern Distribution

Airedoodles are popular pets known for their friendly nature and adaptability.

What It Means Today

This mix results in a dog that is intelligent, friendly, and suitable for families.

Fun Facts

- Airedoodles are known for their hypoallergenic coats, making them a great choice for allergy sufferers.
- Goldie's playful personality makes him a favorite among children and adults alike.
- His energetic nature means he often needs more playtime than the average dog.

Training Intelligence

Cognitive Style

Goldie learns best through positive reinforcement and interactive play.

Notes

Engaging Goldie's mind will help him stay focused and eager to learn.
